

Melett New Product Bulletin 185 – November 2009

Lots more new turbo parts now in stock.

GT/VNT15-25 Unison Ring / Rollers / Pins

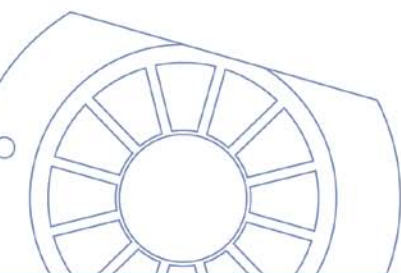

These parts are now available to buy separately from the assembly. As part of the nozzle assembly, they are all produced in the EU using specialist aerospace materials and the same manufacturing technique as the original parts to ensure correct and reliable operation. When using the Unison ring for a repair, please ensure that the connecting vane arm from the centre housing is not worn or the unit will not operate correctly. To ensure a quality repair, Melett recommends replacing the complete nozzle assembly but appreciate that this is not always economically viable.

Melett Part No.	Replace	Description
1102-017-980	Not Known (701741-1??)	Unison Ring (11 Vane)
1102-017-981	Not Known	Unison Ring (13 Vane)
1102-017-870	705860-0001	Unison Roller (VNT) OD9mm / Height 5mm
